## ABOUT THE UNIVERSITY OF WYOMING EXTENSION

---

Are you curious about ways to attract wildlife to your backyard? New ways to stretch your grocery budget? What about putting up a wind generator on your small acreage? Are you looking for a youth program that puts character first? Community development, sustainable agriculture and natural resources, rangeland management, nutrition, food safety, and 4-H/youth development — the University of Wyoming Extension focuses on issues that matter most to you!

Since 1914, UW Extension has helped Wyoming citizens and communities respond to challenges and changes. We have offices in each of the state's 23 counties and the Wind River Indian Reservation. Although our roots are in agriculture, UW Extension has broadened its educational mission to encompass many of the contemporary challenges facing Wyoming's people and its rural communities. We're committed to providing lifelong learning opportunities as we bring the resources of the University of Wyoming home to you!

### STATE INITIATIVE TEAMS

UW Extension uses a team-based approach to educational program leadership. This model revolves around five State Initiative Teams, which assess the needs of Wyoming citizens and communities and then select and develop educational programs around those needs.

- Agriculture and Horticulture State Initiative Team (Ag and Hort)
- 4-H and Youth Development State Initiative Team (4-H and Youth)
- Nutrition and Food Safety State Initiative Team (NFS)
- Sustainable Management of Rangeland Resources State Initiative Team (SMRR)
- Community Development Education: State Initiative Team (CDE)

### AGRABILITY

Wyoming AgrAbility is here to inform, educate, and assist ranchers, farmers, and farm workers with disabilities and their families so that they can continue doing what they love—ranching and farming.

### RENEWABLE ENERGY

UW Extension, in partnership with the School of Energy Resources, welcomes you to Wyoming's source for unbiased information about renewable energy and energy efficiency.

### PUBLICATIONS & VIDEOS

University of Wyoming Extension publications offer peer-reviewed, research-based, objective information in a wide range of topics written by specialists and educators in the College of Agriculture and Natural Resources and University of Wyoming Extension. Publication topics cover most areas of interest to urban and rural residents. Publications on family finances, gardening, landscaping, nutrition, animal husbandry, crop production, small acreage management, wildlife management, renewable resources and other topics are included.

The publications in this catalog are available in PDF, epub and HTML at [www.wyoextension.org/publications](http://www.wyoextension.org/publications).

Informational videos are available on YouTube.

## ORDERING PUBLICATIONS

**Publications listed in this catalog are available free online for download from the UW College of Agriculture and Natural Resources through UW Extension and the Agricultural Experiment Station (AES) unless otherwise noted.**

### PAYMENT

Select publications are available for purchase from the Resource Center.

If ordering directly from the Office of Communications and Technology Resource center, make checks payable to “University of Wyoming.” To pay by credit card, see the Publication Order Form at the end of this catalog.

### SALES TAX

Out-of-state residents are exempt from paying sales tax; however, local sales tax (6 percent) must be added to all in-state orders. Tax-exempt organizations must send proof of tax-exempt status with the order.

### BILLING

The Resource Center will not bill individuals for less than \$10; such orders must be prepaid.

### ADDITIONAL INFORMATION

For more information or to place an order, contact a local UW Extension office (address list at the back of this catalog) or contact:
