LOCATION

307 Pioneers enjoyed their first meeting by introducing the members to each other. We took the opportunity to begin teaching the members the structure of the meeting and how to open and close the meeting, how to make a motion and second a motion. We discussed the initial charter and had the kids give some feedback on what they want to get out of the club as well as what leadership positions they will be electing along with the responsibilities associated with those positions. Our next meeting we will go more in depth on the charter and begin putting the election process together.

# 4-H Members Thrive!

## *By Having a Hopeful Purpose*

Having hope and a sense of meaningful purpose in life is an important part of positive youth development. Research shows that youth with a sense of purpose are more goal-directed, and have increased life satisfaction, better emotional well-being, and greater positive affect. Additional research has shown that identity formation, which is one of the key parts of healthy adolescent development, and having a sense of purpose are connected - in fact, hope and purpose appear to come from one's sense of identity.

From childhood through adolescence, 4-H can play a big role in developing hope and purpose in youth!

When working with 4-H youth:

- Help youth identify their “sparks.” Sparks are a key source of hope and purpose for many youth.
- Actively facilitate the development of a young person’s spark.
- Encourage youth to set meaningful goals and develop plans for achieving them
- Show youth a pathway to the future
- Empower youth voice and show how they can make a difference in the world
- Help youth identify their unique gifts and talents and how they can use them to make the world a better place for others

*Thriving youth have a sense of hope and purpose, and see themselves on the way to a happy and successful future.*

“Purpose is the stable and generalized intention to accomplish something that is at the same time meaningful to the self and consequential for the world beyond the self”.

**William Damon, Ph.D.**  
*Stanford Center on Adolescence  
Stanford University*
